10:30
11:00
Coffee Break

THEMATIC TABLES: The Value of Citizenship and Potential of Intermediary Cities

11:00
12:00
01 – The Intermediary City as ‘Value Capture’ and Citizens as Drivers of Economic Growth
The spirit of the 2030 Agenda aims for equal growth based on sustainable human development. It is crucial to consider new economic models that are closer to the realities of citizens, and their potential and talents.

12:00
13:00
02 – Building Consciousness: Citizenship as a Multiplier of SDG Implementation and Impact on the Climate Agenda
Intermediary cities face the loss of human capital and talent, which triggers the question of how to create opportunities for all inhabitants, while maintaining all positive attributes of life in intermediary cities.

TV Platform 01
UCLG Hub
The issue of citizenship and its involvement in the generation of public policies

THEMATIC TABLES: Intermediation at the Heart of the Sustainable Development of the Intermediary City

14:45
16:00
03 – Leveraging Intermediary Cities in the World: A Unique Potential for Global Sustainability and Territorial Justice
Intermediary cities have a unique chance to maximize the possibility of extending rights through the implementation of the global agendas: gender issues and youth promotion could find here the best opportunity to leverage basic services and basic urban rights into the framework of an urban democracy.

TV Platform 02
UCLG Hub
Strategic planning for economic development and territorial planning

16:15 17:30	04 – The Culture of “Good Living” in Intermediary Cities: Economy, Liveability and a Responsible Way of Living <i>A strategy to put in place a culture of “good living” in all its components, also integrating the link with rural areas, to be strengthened as one of the major pillars for sustainability, is vital for intermediary cities.</i>	TV Platform 03 UCLG Hub Migration as a human phenomenon and its impact on public policies
17:30 18:45	05 – The Concept of Natural Resources as Heritage for Humanity <i>It is crucial to look after and preserve the quality of life of all urban and rural dwellers for the coming years and preserve our natural environment. How can we enable decision makers and inhabitants to take responsibility for this phenomenon?</i>	

Saturday 7 July – “Share & Learn” Events
